

Forklift Refresher Training

(LF and LO)

The **Blueprint Forklift Refresher Program** targets licensed forklift operators to ensure their skills and knowledge is kept up to date. It is no longer acceptable for employers to “assume an employee is competent”, which makes Refresher Training ideal. We recommend that you complete Refresher Training every 2.5 years after gaining a licence/ticket to ensure skills and knowledge are kept up-to-date with the most current industry standards.

Course Overview

Current industry regulations require employers and “persons conducting a business undertaking” (PCBU) to ensure their workers can clearly demonstrate their ability to perform tasks related to their job role when plant is used. This course will help ensure your company is meeting these new requirements and that all operators have up to date knowledge in safe forklift operations. This Refresher Program is targeted towards licensed forklift operators and may include:

- Employees who are currently operating a forklift however have not received formal training for an extended period of time; or
- Those who have limited current experience and are looking to update their knowledge and skills.

Course Duration, Delivery and Location

The program is scheduled as an intensive 2 hour training session and is delivered conveniently at work place. We can customise training to suit your individual or company's requirements. Alternatively, delivery at our purpose built facility in Underwood may be more suitable. Please contact one of our friendly staff today to discuss your needs.

Course Cost

from \$250 (plus GST)

Course Outline

Topics covered in this 2 hour intensive program include:

- Legislative changes
 - Responsibilities
 - Employer/Employee roles
- Pre-Operational Checks
- Safe operating practices
- Stability and safe driving for workplace conditions
- Safe shut down practices

Training content can also be adapted to suit employer's particular needs, for example:

- shift worker's
- HACCP;
- safe use of attachments;
- cold storage etc.

Note: Participants must hold a current forklift licence or ticket to register for this course. A copy of the licence or ticket must be provided for registration. Copies of identification documents are also needed for registration to prove identity.

Extended programs can also be arranged which include “assessments” of employee forklift knowledge or operating competency (commonly known as Verification of Competency – V.O.C.). Please request a company specific quote from us for this program.

Course Outcome

Upon completion all attendees will be issued with a Statement of Attendance. A written report may be provided to the company on request.
